Bonnie - I will try to get the Reference to you. I need to check with the water security division as well - the study if I am remembering correctly, was done in response to terror threats - intentional contamination of a water system. I want to make sure that there is no security issues related to the study. I don't think so but I want to make sure

Bill,
You did a terrific job at yesterday's press conference and in prepping Shawn on the drinking water aspects of this response.

How can Ken access the report/reports you referenced yesterday?

Subject: Seeking study

Bonnie,

EPA Region 3 Drinking Water Branch Chief Bill Arguto said yesterday that a study by EPA's Water Security Division suggests that MCHM would not adhere to home plumbing systems. I asked him for a copy of that study, and he said he would try to get it to me. I haven't seen it yet. Is it available online? Can I please get a copy?

Thanks, [Redacted]
